Subject: RE: Solis / 216 W. Slauson Avenue - update on demo permit
Importance: High

Hello George,

Per our conversation yesterday, I think your demolition crew is still planning to remove the remaining foundation of the former house at 216 Slauson. We will be heading out to the site tomorrow to delineate the section of the remaining footing that our contractors will be taking care of, as a small section of it may have been impacted by the gasoline. We are still planning to start on our portion of the project on Monday the 9th, however we are unable to acquire a permit to work until the demolition has been signed off by the city. Do you know who the demolition inspector is and could you give us their phone number? We'd like to coordinate with the EPA to have someone out there at the same time as the inspection. Please get back to us at your earliest convenience. Thank you for your time.

Regards,

Matt Kaczmarek
Staff Geologist

Subject: RE: Solis / 216 W. Slauson Avenue - update on demo permit

Hi Ben,

Full scale monitoring (work zone plus three stations) is not planned during the demo. We do plan on being present to make sure they are not disturbing impacted soil, particularly when they start removing foundations. We plan on having an UltraRae on Site to monitor and document the lack of impacts during any ground disturbances associated with the demo activity.

Assuming we can pull our permit for 216 Slauson right after the demo is complete, we plan on starting our excavation on the week of December 9th.

Hi Ben and Robert,

We have re-installed the storm water BMPs and will check them again tomorrow before the rains on Wednesday. Also, see below.

It appears that the demo is scheduled to begin the week after Thanksgiving.

Hi George,

We also wanted to know if you have a fire hydrant meter for the demo. If so, we also need one for the excavation. Let me know if there is a way to work out possibly sharing the meter rental so that we do not need two separate permits. I appreciate any help you can provide.

Thanks,

Danny Dolan, P.G.

On Oct 31, 2019, at 11:41 AM, George Pondella <GPondella@rossmoyneinc.com> wrote:

Good morning,

The final building Planning meeting is scheduled for Monday the 4th. The planner has been out of town and returns that day. I shared the R1403 / 40CFR 61 form requirement. We will obtain this. There is also another form that the city wants notarized that we will have Monday.

The work will not begin Monday. Ill inform the group as soon as the city issues the permit and demolition is scheduled.

Have a great day.

Subject: RE: Solis / 216 W. Slauson Avenue - update on demo permit

Update on the demo permit for Slauson:

We received the notarized owner's declaration form in our office yesterday. Bill submitted the form to the Building Department this morning. At the last counter review, Bill was told that this this owners' declaration form was the last item needed before pulling the demo permit.

This morning, Bill was told that they (Bldg Dept) made a mistake by missing required 4 departmental clearances.

Listed below are the required City Clearances necessary to obtain the demo permit:

1. Planning Department - City Planning Commission. CLEARED today 10/25/19.
2. Metropolitan Transportation Authority (MTA) - Construction within Metro Rail Project Area.
CLEARED today 10/25/2019.
3. Planning Department - Southeast Los Angeles Community Plan Implementation Overlay (CPIO). Expected clearance on Monday October 28 when planner who handles area returns to work.
NOT YET CLEARED.
4. Community Redevelopment Agency- Project located in CRA Area Council District 9 Redevelopment Project. Public CRA Counter opens for clearances Tuesday, Wednesday & Thursday. Per the request of the Planning Department, Bill sent an email to the agency today asking them to expedite this. Expecting to have this cleared by end of day on Tuesday. **NOT YET CLEARED.**

If the 2 remaining items are cleared on Tuesday, we can then pull the demo permit on Wednesday, October 30.
